Solar pump water supply in Ediofe, Uganda

- Water for 10.000 people
- This Solar Pump for 22 Communities deploys 3,000 m of pipe and 2 water tanks

GENERALIA - Success stories

Solar pump water supply in Ediofe, Uganda

This solar pump supplies water to over 10,000 people. Three probes capture sufficient water for the community, which is stored in two tanks with an overall capacity above 70 m³. Nearly three kilometres of pipe distribute the extracted water throughout Ediofe in Uganda.
